

How Revolt in Venezuela.
WILLEMSTAD, Curacao, June 19.—While reports are being received from the State of Falcon, Northwest Venezuela, or the Caribbean, Venezuelan revolutionary leaders here have been very active since Gen. Hernandez ("El Mocho") landed in Venezuela.

MILITIA TO TAKE PART AT MOMENT'S NOTICE IN TEST MOBILIZATION

Company D of 22d, Squadron A Troop and Others Selected for Experiment.

Orders went out to seven detachments of the National Guard in this city to-day to be prepared to take part at a moment's notice in the test mobilization planned by the War Department to determine just how quickly guardsmen can be mustered into service.

In Manhattan Company D of the Twenty-second Regiment of Engineers; the Machine Gun troop of Squadron A; Battery F of the First Field Artillery, and Company B of the Seventh Infantry have been selected for the test. In Brooklyn Troop L of the First Cavalry, Battery B of the Second Field Artillery and Company E of the Forty-seventh Infantry will be called.

In all 500 men will take part in the experiment, the date of which will be set on Monday next, when Major Gen. O'Ryan, commanding the National Guard in this State, returns from the War College at Washington.

For the purpose of making the test as practical as possible, each step provided by the law and regulations for mobilization and muster into the regular army of militia and volunteers, except the administration of the oaths of office and the actual enlistment, will be carried out to the letter. The mobilization camp, however, will be hypothetical, all the work being done in the armories. The Chief Quartermaster will proceed to the mobilization camp selected by the State and there theoretically prepare the camps of the various organizations, arrange for water supply, "construct" railroad spurs, switches and sidings for the prompt handling of troops and supplies and erect temporary structures for mess and bath.

The work to be done in the armories includes the administration of typhoid prophylaxis, taking of fingerprints, physical examination of recruits and the drilling and equipping of troops in the company rendezvous.

LOANS CLEVELAND'S CHAIR.

Dr. Bryant's Widow Turns It Over to Birthplace Association.

George F. Parker, President of the Grover Cleveland Association of New York City, has just learned that the large tilting and revolving deck chair specially made for President Cleveland and used by him during his second term at the White House has been loaned by Mrs. Joseph D. Bryant to the Cleveland Birthplace Association at Caldwell, N. J.

At the close of his second term President Cleveland presented this chair to the late Dr. Joseph D. Bryant, his close friend and personal physician. No possession that Dr. Bryant had was more highly valued, and Mrs. Bryant is said to be interpreting his wishes in loaning it to the Birthplace Association, which is gradually assembling as many relics of the late President as can be procured.

QUEEN IS GOING BLIND.

Swedish Ruler Is Operated On for Cataract on One Eye.

STOCKHOLM, June 18.—Queen Victoria of Sweden has gone to Baden-Baden to be operated on for a cataract of the eye. She is becoming blind in the left eye.

OUT OF FUNDS, SEEKS SUITABLE ALIMONY

Wife of Dr. Daniel A. Sinclair Sues for Separation—Lived Apart Since 1903.

Through Benjamin W. Moore, her attorney, Mrs. Ella Sinclair, wife of Dr. Daniel A. Sinclair, filed in the County Clerk's office to-day a summons and complaint in an action for a separation brought against her husband. They have lived apart since 1903. Recently Mrs. Sinclair sought to restrain her husband from sending their fourteen-year-old boy, Hugh Sinclair, to a Jesuit school in England, but Justice Goff declined to grant it.

Mrs. Sinclair alleges that since her marriage to the doctor on June 2, 1896, his treatment of her has been cruel and inhuman, that he has been guilty repeatedly of acts of cruelty and that on three occasions he threatened to kill her. She has never sought alimony or a separation and, she says, up to within a short time before beginning this action she has been able to support and maintain herself from funds left her by relatives. These funds, she says, are exhausted and she has to depend upon the bounty of relatives. Her husband, she says, is a practicing physician with a large and lucrative practice.

Mrs. Sinclair makes no demand for the custody of her child, but asks that a suitable allowance be made her as to alimony and counsel fees.

QUINLAN TAKES APPEAL.

E. W. W. Man Will Go to the Highest Court.

TRENTON, N. J., June 19.—Patrick Quinlan, who took part in the E. W. W. activities during the Paterson strike of 1912, which during the present week has been the subject of Federal inquiry through the Commission on Industrial Relations, to-day filed an appeal to the Court of Errors and Appeals in the matter of his conviction of inciting to rioting. For inciting to riot Quinlan was sentenced to the State Prison for from two to seven years in the Passaic County Court. He at once filed an appeal which carried the case to the Supreme Court, which recently confirmed the judgment and sentence of the trial court.

On Monday next he would have been liable to arrest and detention and the forfeiture of his bail if he did not surrender. The new appeal to the highest court in the State stays the execution of the sentence until the decision is rendered.

WIFE CLOSE ON HIS TRAIL.

Boston Dentist Arrested Here, Charged With Abandonment.

Joseph H. Feldman, a dentist of No. 28 Davis street, Boston, Mass., was arraigned to-day before Magistrate Ten Eyck in the Morrisania Court, charged with abandoning his wife in Boston two weeks ago. He waived extradition and was held without bail for the Boston event. His wife, Mrs. Feldman, caused her husband's arrest yesterday in front of No. 28 Davis street in Boston. She said that she had learned that her husband, who left home a few weeks ago, was booked to sail for Europe Wednesday on the Princess Irene. She went to the pier with two detectives and found that he had cancelled his passage.

MURDER REVEALS THEFT.

Package Found in Saloon Where Man Was Slain.

Tony Barrone, keeper of a saloon at Canal and Mulberry streets, was arraigned to-day before United States Commissioner Clarence S. Houghton, on the charge of receiving and having in his possession a parcel post package addressed to Benjamin Eastwood of Paterson, N. J., containing leather, valued at \$8, which had been stolen from the mails. Barrone was put under \$5,000 bail to answer to the court next Wednesday. A few days ago Tony Caputo, who was celebrating his release from a murder charge, was mysteriously assassinated in Barrone's saloon. While searching the place the police found the package.

"WHAT IS WINE?" ANSWERED IN RULING OF SECRETARY HOUSTON

Water Added to Juice of Grapes in Making Renders Product an Imitation.

WASHINGTON, June 19.—Secretary Houston to-day decided "what is wine" and made a pure food ruling of far reaching importance to all domestic wine makers, particularly those in Ohio and California.

It prohibits the use of the name "wine" on products made by the addition of water to the juice, pomace or pulp of grapes, and defines wine to be "the product of the normal alcoholic fermentation of the juice of fresh, sound, ripe grapes, with the usual cellar treatment."

The new decision provides that where any water is added to the pomace of grapes it is not "permissible to label that product 'otherwise than an imitation wine,' and affects all wines made after June 12, 1914.

This action has been taken, in the language of the decision, because "the Department of Agriculture has concluded that gross deceptions have been practiced under food inspection decision 120."

Food inspection decision 109, also relating to wines, was abrogated.

In view of the fact that the juice of grapes in many unfavorable grape growing seasons is either too acid or too sweet to make wine, the new decision permits correction of the natural defects in grape musts and wines due to climatic or seasonal conditions by additions in unfavor-

Short-Cake that's l-o-o-o-n-g on good-nose! Make it with Presto Flour

Two cups "Presto," 2 level teaspoons sugar & 1 cup butter, 1/2 cup milk. Mix together the "Presto" and sugar. In the mixture work the butter with the tip of the fingers and then gradually add the milk, using a spoon to mix with. Turn on a board dusted with "Presto" and roll about 1/4 inch thick, and then bake 20 minutes in a shallow pan in a hot oven. When done, split, separate and spread with butter. Put one layer on a large platter, cover with crushed berries, sweetened to taste. Put the second layer on top of the berries and again cover with the crushed fruit. Serve with cream and sugar. Many other famous recipes in and on every Presto Package.

STEAMER SANTA CLARA SAILS PANAMA CANAL

First Privately Owned Ship to Navigate the Locks—Heads for New York.

PANAMA, June 19.—Another successful passage through the Miraflores and Pedro Miguel locks of the Panama Canal was made to-day by the steamship Santa Clara of the Pacific-Atlantic Steamship Company. The operation was carried out without incident, and the vessel proceeded on her voyage to New York by way of the Magellan Straits.

The Santa Clara is the first privately owned ship to pass through the locks, and she did so for the purpose of giving experience of the locks to the crew of a steamship of American register.

LANDSLIDE KILLS TWELVE.

Victims Buried in New Railway Tunnel Near Nice.

NICE, France, June 18.—Twelve persons were killed and seven injured by a landslide to-day in a tunnel of the new railway from Nice to Cuneo, Italy. It is feared that others were buried beneath the debris and that the death list will be increased.

GIRL KILLED BY AN AUTO.

Eight-Year-Old Alice Golder Ran Down on Staten Island.

Alice Golder, eight years old, of No. 7 Jersey street, New Brighton, Richmond Borough, was to-day knocked down and fatally injured by an automobile at Jersey street and Richmond terrace.

The automobile, owned by John Vermule of No. 101 Clinton avenue, was driven by Lincoln Williams, chauffeur for the Vermule family. Williams stopped after two wheels of the car had passed over the child and hurried with her to the S. R. Smith Infirmary Hospital, but she died a short time after reaching that institution. Witnesses said he was not at fault.

Fels-Naptha Soap is an all-the-year soap. It is the every-kind-of-cleaning soap, too.

Anty Drudge Gives the Doctor Good Advice

Doctor—"Anty Drudge, a patient of mine told me that you knew a cure for tired-out women. I wish you'd tell me what it is."

Anty Drudge—"It's something you wouldn't recommend, I'm afraid. If you'd tell all your women patients to use Fels-Naptha Soap for their housecleaning and washing, you wouldn't have as much to do. You can use Fels-Naptha Soap the year round as a prescription for over-tired women."

There is nothing that won't look better if washed with Fels-Naptha Soap. Every woman who uses it feels better and has more time for pleasure. It is the Soap that works in cool or lukewarm water, that dissolves the dirt, instead of leaving it for you to rub out; that makes your clothes look snowy white without boiling them to pieces; that saves your back, your hands, your time.

It makes it possible for you to do your washing in half the time and with half the bother. It takes the dirt and grease off your dishes and makes your glass and silver shine.

Better buy Fels-Naptha by the carton or box. Follow the directions on the Red and Green Wrapper.

The broken bracelet matches—and a young girl is made fabulously rich—

Just be patient—
